TIMES IT SOLUTIONS is an innovation driven IT Solutions based Company. Founded by Mr. R.K.Jindal in year of 1997 and Incorporated in the year of 2002 & is a reckoned name in the field of Information Technology for rendering complete, Efficient, Satisfactory & User friendly latest solutions to our customers spread across various Industry spectrums. We excel in creating LAN / WAN infrastructure based on wired / wireless technologies. Our engineers are trained to design, implement and maintain complex networks. We have requisite affiliations from Industry leaders like Cisco, Nortel, Extreme, D-Link, Molex and Systimax to name a few.

Taking ahead our efforts to make it a world class product & services provider, **TIMES IT SOLUTIONS** ventured into Hardware supplies and its **Annual Maintenance Contracts** with a strong brand presence of **IBM, Lenovo, Apple, HP, Wipro, Micromax, Epson, D-Link, Dell, Acer, APC, Numeric, Emerson & Delta** to back it. Today we feel proud in claiming that we are one of the preferred suppliers in IT field, in terms of **IBM, Lenovo, HP, Apple, Epson, Canon, D-Link, APC, Dell, Acer, Numeric, Emerson, Delta** and related Hardware.

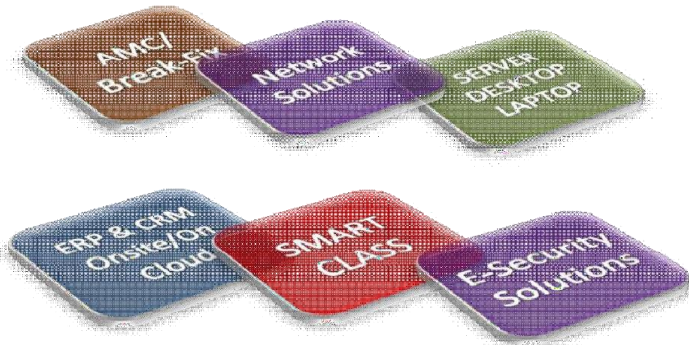

While providing tailor made Professional, Affordable, Comprehensive and cost-effective IT Solutions & services to Organization and Institutions, we also improve their competitiveness, building on its strengths in the Maintenance, Data protection & Recovery, Virus protection, Systems Integration, Product Development, Networking & Software Solutions.

We instantly become a Trusted Consultant to our esteemed customers, while understanding and specking in accordance to their requirements, procuring products at the best prices, country wide installation and one of the best after sales support.

“Our ideology is to be a consultant to the customer rather being a mere seller”

At a time when the economy is growing at a fast pace, your organization is growing and your competition is trying to catch up the pace with you, you require I.T. Solutions provider rather than a mere reseller. Here **TIMES IT SOLUTIONS** fills the gap, with a team of hard-core professionals & using technology as a means with user friendly solutions to enhance productivity at your place which gives you and a strategic advantage. In a nutshell you require a partner in growth than a mere reseller.

Managing IT Infra & Applications

Services:

In the fast-changing times what you require are relationships and personnel who can handle the relationships and take on the spot decisions, therefore Times I.T. Solutions management believes in empowering all executives in the company to take decisions independently, thereby fostering a think tank environment. The priorities of the company are:-

- **Customer Service & Satisfaction**
- **Quality of Service**
- **Value Addition**

While dealing with us look at the total package that you get as we do not believe in just selling products but provide a Complete Package of Technology Consulting, Product Evaluation Services, and Product Supply & Implementing Training & Post-Sales Support with Professional support.

What Do We Do??

Experience, Core Competencies & Profound Knowledge

As solution providers, we analyse the client’s current setup, understand their requirement from the IT setup, try to address the current and future requirement issues and accordingly offer solutions.

Key areas of our competence are:

Solutions

TIMES IT SOLUTIONS has a strong technology base to provide world-class solutions to our customers. With a high level of technical consultancy experience in Information Strategy Planning, Information Architecture, Business Process Re-engineering and Analysis & Design of Information Systems we at **TIMES IT SOLUTIONS** are geared up to take any challenges.

Our engineers are skilled professionals, which reflect in their profiles. They ensure minimum downtime in IT systems. Our Engineers are certified in the following areas:

- Cisco – CCNA certified specialists.
- Systimax, D-Link and Krone & Molex - Certified Structured Cabling Engineers.
- Certified RF Specialists
- Microsoft Certified (MCSE) Engineers
- Cyberoam Certified Security Specialists
- Avaya Certified Voice and Data Sales/Technical Professionals
- Red Hat Linux Certified Professionals

We offer a wide range of solutions in the following domains:

- Providing desktops and Laptops DELL, ACER, LENOVO, SAMSUNG etc
- Printing, scanning and photocopier solutions XEROX, CANON, PANTUM, MEPL etc
- Routing and Switching Solutions on Cisco, Juniper, D-Link, Avaya (Nortel), Yealink etc
- Structured Cabling Solutions on Systimax, Digilink, Molex, etc
- Video and Audio-Conferencing solutions on Polycometc
- IP Surveillance Solutions from Hikvision, CP Plus, etc
- Network Security & Data Leakage Prevention Solutions from Sonicwall, Cyberoam, Juniper, Fortiget etc.
- Telephony and Voice Solutions from Avaya, NEC etc
- Wireless Networking Solutions from D-Link, Mikrotik, Cisco, Extreme, Avaya (Nortel), Ubiquity, Juniper etc
- FMS solutions on Third Party for all kinds of Servers, PC's, Printers etc
- Corporate Training Services on CCNA, Microsoft, Adobe, Red Hat Linux, Corel draw etc
- Electrical Solutions
- Furniture Solutions

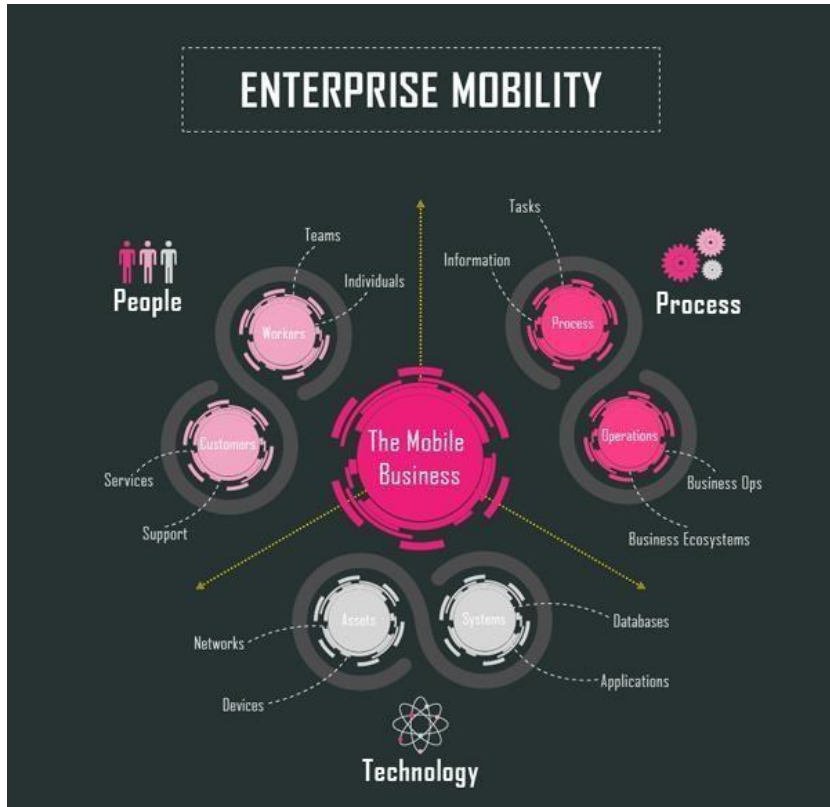

Enterprise Mobility Solutions:

Enterprise Mobility service is a solution for organizations to enable their employees to use mobile devices securely. Enterprise mobility management is the process of securing corporate data on mobile devices of the employees. It contains a set of services and technologies for mobile management.

It includes 4 major components i.e. Mobile Device Management, Mobile Content Management, Mobile Application Management, and Mobile Identity Management.

Enterprise mobility solutions differ from one company to another. Some solutions are only for securing data, while some are for securing particular apps, and a few others are for locking the complete device.

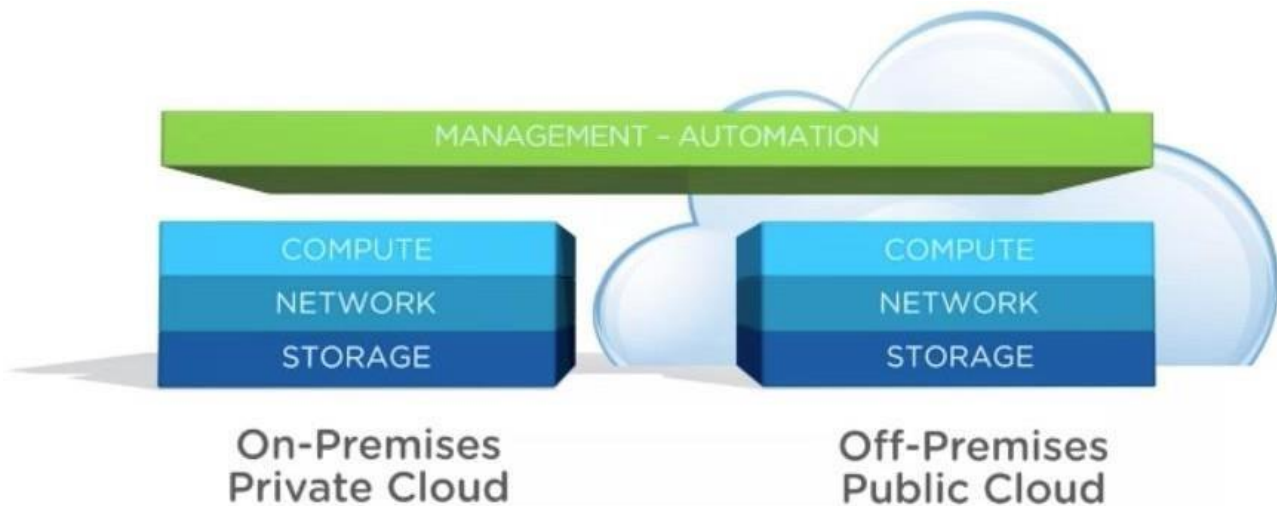

Employees can be more productive at work with mobile devices as they can work on the go. As corporate resources are accessible from these devices, there are threats to the organization security and this may be because of device theft, data loss, malware etc. Hence security & identity and access management is also an important factor of an enterprise mobility solution.

Data Centre Solutions:

Data center solutions refer to the products and services needed to create and maintain a data center. Products include IT equipment, like servers, routers, storage systems, and firewalls, as well as supporting infrastructure for the physical data center, like cooling systems, batteries, generators and cabling. Services include technical support, installation, and configuration.

Depending on size and needs, a business may use its own data centers or it may share a section of a data center with other tenants. Consequently, data center solutions can include just the setup and maintenance of certain racks within a data center, or they can expand to include the design and construction of an entirely new, proprietary data center.

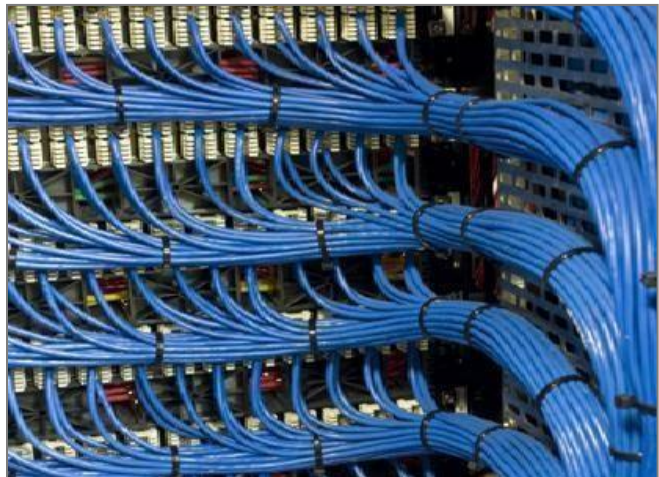

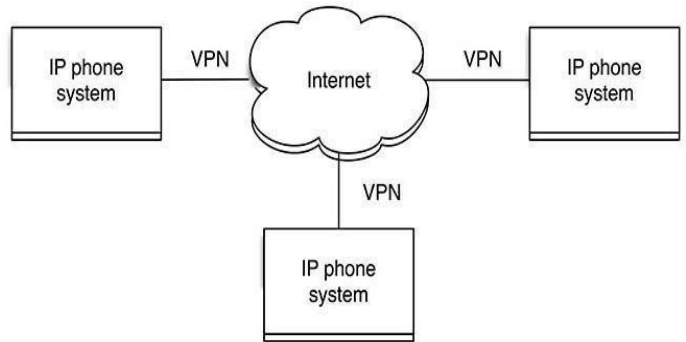

Networking & System Integration Solutions:

With Certified and trained professionals, the division concentrates on creating Local / Wide Area Networks. We provide comprehensive Networking Management Solutions which include Wireless solutions, Internet/Intranet Solutions, WAN, VOIP, Structured Networking Solutions. We have designed & implemented large & complex projects involving equipment's from Cisco, Nortel , Extreme, Systimax, D-Link, Molex, Krone etc. Our expertise lies in creating Campus Wide Networks with Fibre backbone.

This division deals in:

1. **Fiber Optic Networking** : We provide FOC Networking to Various Corporate Client on Mesh & Token Ring Topology
2. **Structured Cabling**: We provide structured solutions based on Systimax, Digilink, Krone and Molex. We have proven expertise in this field and have certified Engineers from all of the above vendors. We have inhouse expertise and equipments like Fibre Toolkits, Splicing machine, OTDR etc to install the Fibre/ UTP based networks.
3. **Ethernet Solutions**: We are Premier Partners for D-Link , Nortel, Cisco and Extreme for their entire range of Layer 2/3 managed Data solutions
4. **WAN Solutions** – Cisco, Dlink and Nortel
5. **Wireless Networking**: We are one of the foremost solution providers for RF based products. With highly trained and motivated technical staff we offer the following products
 - Radio Modem from **Microtel** on 2.4, 5.8 GHz frequencies
 - Long Distance Point to Points & Multi Points Links upto 60 kms.
 - Wireless broadband Solutions for Non-LOS based links & home
6. **EPABX / IP PBX Solutions: Connect multiple PBXs and IP phone systems**

For companies with multiple locations connecting their phone systems (PBX) is a game changer. Internal phone calls between the connected phone systems become possible, when the bandwidth provided by the internet is sufficient. Required is a bandwidth of at least 100KBit per voice channel. Especially SDSL internet connections are advantageous, because they offer the same bandwidth for uploads and downloads which is required for VoIP.

Network Security:

TIMES IT SOLUTIONS offers full range of Gateway Level Security solutions from Cyberoam & are premier partners of Cyberoam UTM based solutions in North India and have secured networks of major companies in manufacturing and PSU segment.

Cyberoam offers complete Gateway Level Security solutions (Unified Threat Management) to its clients. A single Hardware device takes care of the following:-

- Firewall
- Bandwidth Management
- Antivirus/ Anti Spam
- Web and content Filtering
- Intrusion Detection and prevention
- Load Balancing
- Reporting
- VPN security

Microsoft Services

TIMES IT SOLUTIONS has many experienced Microsoft certified engineers (SQL Server, Visual Basic, DBA), it can design and implement a wide range of high-performance, scale band affordable business solutions based on Microsoft platforms.

We have a matured level of business partnerships with the following organizations

					 www.CTDI.com
					
					
					
					

Warranty & Support

All products sold by **TIMES IT SOLUTIONS** carry warranties against defects. During the warranty period, comprehensive service support is available.

Extended Warranty Contracts

Warranties can be extended to enable the client to enjoy the assured availability of unlimited support. Annual Maintenance Contracts (AMCs) beyond the warranty period, the customer can enter into an appropriate AMC providing the right level of service support.

Advanced Security Solutions

TIMES IT SOLUTIONS is the growing leader in providing Advanced Security Solutions. We have a reputation of integrity, experience, reliability and quality. We understand that you are not just making a financial investment; you are investing in safety for your family or business. Our goal is to be the best at providing safe and secure homes and workplaces. We strive to exceed our customers' expectations. Our commitment to excellence is proven by continually seeking to improve our products, procedures and ourselves. Our mission is not only to protect lives, properties, assets and cash, but also to make people feel safe and secure round the clock.

Security & Surveillance

TIMES IT SOLUTIONS can customize design and caters CCTV systems incorporating the latest technology to suit all types and sizes of installation. Our expertise in other electronic security systems enables us to integrate CCTV with other items such as access control, intruder alarms, etc. The use of CCTV has escalated greatly in recent years therefore the range of available equipment and technology has had to keep pace. It is therefore vitally important that your needs are understood and a system is specifically designed to fully meet those needs.

Our most innovative security products including multiplexing DVRs, NVRs, Network Cameras, Speed Dome Cameras, Household Wifi Cameras, Keyboard Controllers, High Resolution Cameras, Water-proof IR Cameras, Outdoor Cameras and Video Door Phones, With our C.M.S. (**Central Monitoring Station**) all the security products are seamlessly integrated together achieving the **"Best Cost and Top Performance"**. We work with renowned market leaders in Access Control and by using our expertise and knowledge we ensure that our clients are supplied with a system that is right for them.

GPS Tracking System

The range of Vehicle and Personal Tracking Solutions that we offer is a great boon while following the whereabouts of moving traffic. Based on most advanced technology, the system incorporates most stunning operation features for total efficient performance, durable and hard wearing nature. Advanced Security Systems offers benevolent tracking devices that help you in keeping a watchful eye on your loved ones. Tracking devices include kids, adults, elderly, handicapped, sick people and even pets who need constant attention. Our state of the art technology in tracking will be of great help to you if you are being troubled by your conscience due to the various roles you have to juggle in your busy life.

Features

- Pet Tracking
- Personal Tracking (Individual Tracking)
- Assets Tracking
- Fleet Tracking / Fleet Management
- Vehicle Tracking
- Personnel Tracking

Biometric Systems

TIMES IT SOLUTIONS has its prime focus in biometric Security Products eg. Biometrics/ fingerprints based time attendance systems, access control system, fingerprint scanner, facial recognition attendance system, proximity and smart card based products. Our range of products and services are supplied and installed to a variety of associations, institutions, establishments, organizations and products resellers. We are providing ready stocks of various proximity, smart card and biometric systems, fingerprint scanners and other accessories.

Our present range of Time & Attendance Systems:

- RFID Attendance Systems
- Biometric Attendance Systems
- Biometric Access Control Systems
- Fingerprint Scanner
- Facial Recognition Systems
- Attendance Software
- Payroll Software
- Timely execution
- Effective planning before implementation
- Authenticity in implementation process
- Highly reliable
- Flexible as per the demands of the client
- Cost Effectiveness

The Retail ERP

Fast Customer handling, inventory management, schemes and promotions, multiple store hand are some of the specialized requirement for Retail operations. We tie up with Fusion Retail, a specialised solution for retail businesses and Hotels. It captures most complex retail process across various segments from Hotel, Restaurants, Food Courts, Canteens and Sweet Shops, Super Markets, Garment and any other type of retail operation. In most cases we get the client up and running in 48 hours.

M-Governance

Mobile has revolutionalized the space of field governance and monitoring. Combined with the power of precise GPS mapping, Mobile data capturing, cloud computing and data base analytics and it creates a great M-Governance.

We tie up with Soft Systems to offer Effective solutions for School Inspection, Mid-Day meal management, Surveys, Forest plantation improvement, Electric Meter Readings and many such interesting areas for better governance. Our expertise lies in developing scalable solutions and delivers in record timings.

CRM

Customer is the key to any business. Working on the solid foundation of Sugar CRM we map the sales and support structure for various types of business processes. We are expert in cost and time analysis, Integration of CRM with telephony and other legacy tools.

E-Governance

“Minimum Government & Maximum Governance” is the key word. Ensuring that the benefits reach to the last man, we specialize in Social Benefit Transfer, Education Delivery system and such specialized process for E-Governance.

HR & Administration

In the ever growing service economy it's the human resource which creates the key differentiation. We have developed an innovative solution for HR anchored around Objectives. It covers complete functionality starting from Recruitment, KRA, Monthly review, self service portal, requisition, leave management and other functionalities.

Software Solutions:

With Certified and trained professional we have the customizable software solutions with us as per the requirement of the customer which includes billing soft wares, inventory management soft wares and other ERP solutions. We are also offering one unique product ArcGIS. Below is the information regarding ArcGIS. More details can be obtained from the official Weblink <https://www.esri.com/en-us/arcgis>

ArcGIS Pro is Esri's powerful, single desktop GIS application. Technologically ahead of everything else on the market, ArcGIS Pro supports data visualization, advanced analysis and authoritative data maintenance in both 2D and 3D. ArcGIS Pro is tightly coupled with the ArcGIS platform supporting data sharing across ArcGIS Online and ArcGIS Enterprise through Web GIS.

User will be provided role based web interface credentials which would enable users to plan and view tracking system for their Iron-Ore Operations. Summary and detailed reports will be enabled on operation dashboard which will help managers & officials to review, plan routes and view busses navigation on real time basis. This would be helpful for decision making and analysis for improving the transportation management

Smart Classroom Solutions

Interactive Solutions (Interactive Whiteboard System (EyeRIS) Smart Classroom)

TIMES IT SOLUTIONS provides wide range of Interactive Solutions suitable for Classrooms, Training Halls, Presentation and Seminars.

We offer Interactive AV System for Digital Class Rooms an advance Optical Based Technology. These systems are made using latest technology and feature long service life, quality and better performance. An interactive whiteboard is an instructional tool that allows computer images to be displayed onto a board using a digital projector. The instructor can then manipulate the elements on the board by using his finger as a mouse, directly on the screen. Items can be dragged, clicked and copied and the lecturer can handwrite notes, which can be transformed into text and saved.

MultiTouch Interactive White Board
Digital Classroom Solutions
 @ Times IT Solutions

Advanced Visual Touch Stereoscopic
 3-D Optical Gesture-Tracking Technology

support@timesitsolutions.com www.timesitsolutions.com

EyeRIS is the ground-breaking, feature-rich and portable interactive whiteboard system based on the pioneering Visual Touch platform from Cybernetyx which supports Multitouch, Multiuser and gesture-based interaction on about any surface.

The term Multitouch refers to the ability not only to detect physical touches and movements on a screen, but to detect and track multiple touches and movements simultaneously. Touch events are similar to mouse events, except that you can receive and track more than one of them at once, and touch events do not support mouse-specific concepts such as hovering.

Our Trusted Business Partners:

- Cybernetyx
- Globus
- Smart Board

Features	Internal Components	Benefits
<ul style="list-style-type: none"> • Professional application software, support mouse wheel to zoom in/out image. • A smart key to freely switch the built-in speaker and external speaker. • 50mm ultra-thin design, available to embed into the push & pull chalkboard. • Document Camera support audio and video simultaneous recording. • HDMI central control function, HD multimedia devices HDMI signal switching are available. • Unique infrared remote control coding function, after coding, any remote controller scan control the device. • Hidden button design, buttons are hidden when not in use. • One touch ON system & lockable. • Available in Black Color. 		<ul style="list-style-type: none"> • Super smooth writing surface • Optimum erasability • Ceramic finish is fused to the steel at a temperature in the range of 700° - 900° C • Greater color contrast • Minimal surface/light distortion • Enhanced visibility and optimum eye comfort • Standard and premium color finishes available • Color will not fade • Polyvision Belgium e3 • Available in various sizes.

Projectors

Turn any wall into an interactive whiteboard and interact from anywhere in the classroom.

Project your lesson

Engage the whole classroom with your teaching by projecting your screen big and bold for everyone to see.

TIMES IT SOLUTIONS has partnership with the leading projector vendors to bring you the best choice of value and functionality. We have a wide range of projectors available with education and corporate warranty options. Our audio-visual specialists can help you choose the right category and model of projector to suit your budget and function.

Pole-mounted projector

Pole-mounted projectors are fixed to the ceiling on a short rod, keeping them well out of the way during classroom or meeting activity.

- Out of the way ceiling mount
- Free pre-installation site survey
- Education warranties available
- Easy to use

Ultra-short throw projector

Ultra short throw projectors mount to the top of the projection screen, requiring very little distance to project their image. They are tough and durable and have the latest technology to create great images without taking up space.

- Mounted on top of screen
- Space saving
- Tough and durable
- Latest ultra-short throw technology
- Free pre-installation site survey
- Education and corporate warranties available
- Easy to use

LED projector

LED display technology projects brighter, more vivid images onto your screen using less power to do so. Coupled with intelligent fan control, this means significantly less energy consumption and wear, resulting in 5 year warranty availability.

- Brighter, more vivid images
- Lower energy consumption
- Various mounting options
- Free pre-installation site survey
- 5 year warranties available

Air Conditioning

TIMES IT SOLUTIONS Esteemed as a reliable service provider; we render the finest quality of Air Conditioner. Their split air conditioner models are perfect for those looking for a sleek design and quiet operation, while the window air conditioner options are great for smaller spaces. Godrej provides cheap air conditioner options for those on a budget without compromising quality.

Digital Podium

TIMES IT SOLUTIONS offers the most innovative smart classroom equipment, i.e. **DIGITAL PODIUM**. As the name suggests digital means "technology" and the podium means a lecture stand; the amalgamation of both can transform the learning into mindboggling yet interesting session. Our Model Name is i-Touch Lectern that comprises various media components/devices to be versatile in nature.

Make your presentation more interactive and organized by using a built in PC and get them displayed on a 19" Interactive Monitor. Globus Digital Podium / Lectern also houses an inbuilt audio system comprising of Amplifier, Speakers and wireless microphone. It is ideal for Classrooms, Auditoriums, Universities, Polytechnics, Board Rooms, ITIs, Offices, Engineering/ Medical Colleges, Ops Rooms, Training Rooms, Conference Rooms etc.

Key Elements of Digital Podium i-Touch Lectern are:

- Touch Monitor
- Visual Presenter / Document Camera / Visualiser
- Public Addressing (PA) System
- Uninterrupted Power Supply

All these devices collectively perform to make the presentations impressive altogether. This user-friendly equipment makes the learning entertaining, interactive and thought-provoking.

Servers

A server is a computer or system that provides resources, data, services, or programs to other computers, known as clients, over a network. Now the new era of make in india servers. Made in **India** servers are now being deployed at large scale to serve the growing demands of Indian customers ahead of schedule".

Power Solutions

- Online UPS
- Servo
- Solar Inverters
- Batteries

Video Conferencing Services

Ensure success and maximize the return on your investment in Video Collaboration solutions with Polycom & Logitech video conferencing services. Our experts can help address critical gaps you may have in related experience and expertise, resulting in enhanced end user and customer satisfaction, higher productivity and increased user adoption rates. We partner with you to design, deploy, support, optimize and manage a solution that delivers a superior experience in every workspace with an easy to use and consistent workflow. When you use Polycom or partner services, you can:

- Strategize on how best to prepare your environment for new technology
- Reduce risks and minimize impact to your production environment
- Get the best, most appropriate product and solutions support available
- Augment your internal resources with expert technical consultants and operations assistance.

Public Address System

We deals in PA Systems of esteemed companies from which Ahuja, Bosch, Honeywell are to be named a few. And have a experience of successful installation of all these companies' products.

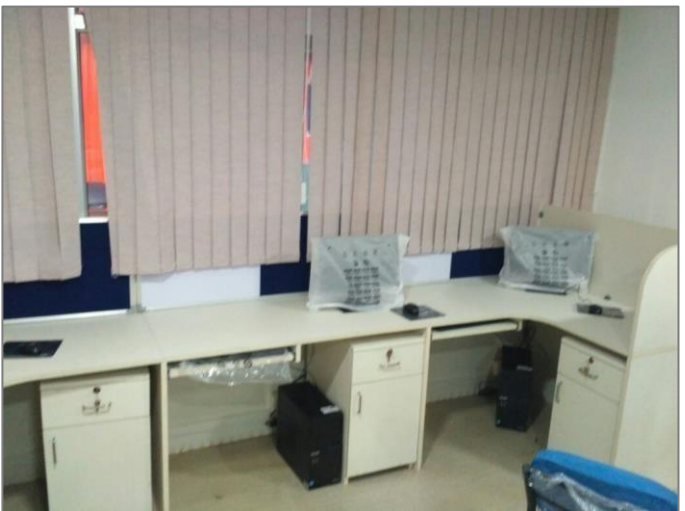

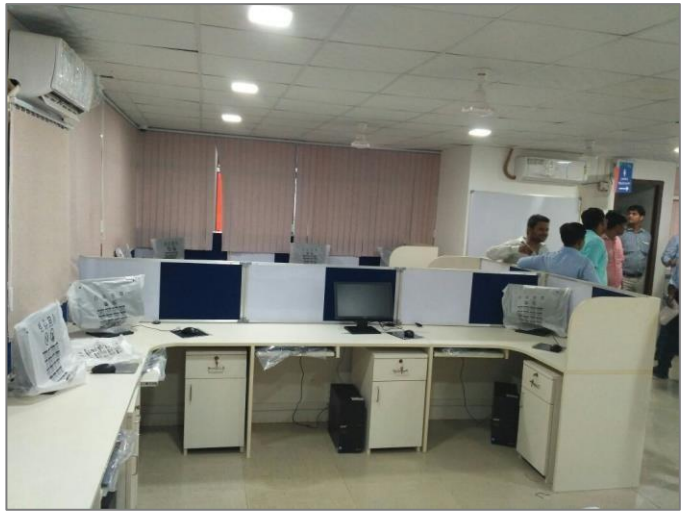

Electrical Solutions

The TIMES IT SOLUTIONS also deals in Electrical Solutions , MCB boards, Fire Extinguishers, Fire Detectors & Sensors, etc
